

DESIGNED TO WORK...

... BUILT TO LAST

## Chester Field Shelter

Our classic timber field shelters are available in a range of sizes to suit your needs and can be erected onto a prepared base of brickwork or sleeper walls to form a permanent static structure or onto a galvanised steel skid allowing the shelter to be movable.

All standard shelters have a central opening on one side.

Mobile field shelters can be erected where required and towed to various locations with a suitable vehicle, whilst we can provide galvanised steel bases to suit our larger field shelters, we do not recommend towing them.

### Construction

Each shelter is solidly constructed from 3" x 2" planed timber framework with 3/4" finished thickness pressure treated shiplap external boards to protect against worm and rot.

All sections are pre-drilled making the shelter easy to erect and dismantle.

### Roofing

Maintenance-free and easy-to-handle natural grey fibre cement corrugated roof sheets are standard, while clear p.v.c. rooflights can be supplied at no extra cost to provide additional light into the shelter. Coloured roofing sheets and ridge vents are available on request.

### Galvanised Steel Skid Base

Each skid base is strongly constructed of mild steel box section galvanised to prevent against rust. Towing points are welded to the frame at both ends, and a heavy duty towing chain can be provided. Each base is corner braced for additional strength.

Subject to local authority conditions, mobile shelters do not require planning permission.

### Optional Extras

Our optional extras include rainwater goods, canopies, galvanised gates, stable doors. Internal partitions are also available to suit our field shelters.

#### Available Sizes and Types

- 12' x 10' (Static or Mobile Base)
- 15' x 10' (Static or Mobile Base)
- 20' x 10' (Static or Non-Towable base)
  
- 15' x 12' (Static or Mobile Base)
- 20' x 12' (Static or Non-Towable Base)
- 24' x 12' (Static or Non-Towable Base)
- 30' x 12' (Static Only)
  
- 20' x 15' (Static Only)
- 30' x 15' (Static Only)
