

DESIGNED TO WORK...

... BUILT TO LAST

AGRICULTURAL EQUESTRIAN INDUSTRIAL LEISURE

With more than 70 years experience in the design and construction of equestrian buildings, Browns of Wem enjoy a unique reputation for quality, durability and value for money.

Whether to create an international competition arena or house a single pony, we have the skills to produce steel framed and sectional timber buildings that are attractive, blend in to the local environment, are practical and built to last.

We are one of the only companies who can offer both steel and timber construction from our manufacturing site. Our proven range of established products and bespoke design service enables us to provide every imaginable combination of building uses for any application – and all to our renowned standards of quality and service.

➤ **Choice of Steel or Timber construction**
As established professionals in the field of equestrian buildings, our skilled surveyors, draughtsmen and fabricators can produce a building to meet every requirement

We have the experience and expertise to work with your chosen internal contractor to create the best solution for your needs

➤ **Equine Consideration**

We understand the additional demand that equestrian use can place upon buildings, and we pay particular attention to ventilation, roofing and daylighting, wall coverings, doors, windows and fittings.

- Bespoke design to suit any equestrian requirement
- Quality, durability and added value
- Expert technical advice and free site survey
- Free planning application service for customers
- Fast and efficient service throughout the UK
